

Kuthula

Consulting & Projects

BRAND GUIDELINES · LOGO PACK · VERSION 1.0 · NOVEMBER 2026

Logo versions

Use the stacked logo as the primary signature. The horizontal logo suits wide spaces such as banners, letterheads and email signatures. The icon stands alone only where the name is already visible or space is very small.

PRIMARY · STACKED

HORIZONTAL

ICON

REVERSED ON DARK

MONO BLACK

MONO WHITE ON BRAND RED

GRAYSCALE

Clear space & minimum size

Keep a protected zone around the logo. The clear space equals X, the diameter of the red dot, on every side. Nothing — text, edges, imagery — may enter this zone.

Minimum sizes

Stacked logo
30 mm / 120 px wide

Horizontal logo
40 mm / 160 px wide

Icon only
8 mm / 24 px wide

Below these sizes the descriptor line becomes illegible — use the icon or the wordmark alone instead.

Colour palette

Three brand colours drawn from the icon, plus one supporting neutral for dark backgrounds.
CMYK values are starting points — always confirm against a printed proof.

Kuthula Red

HEX #BF2F33
RGB 191 · 47 · 51
C0 M75 Y73 K25
Primary · wordmark, dot

Kuthula Green

HEX #41A549
RGB 65 · 165 · 73
C61 M0 Y56 K35
Accent · arc

Kuthula Grey

HEX #8C8C90
RGB 140 · 140 · 144
C3 M3 Y0 K44
Secondary · K, descriptor

Charcoal

HEX #17171A
RGB 23 · 23 · 26
C12 M12 Y0 K90
Supporting · dark backgrounds

On dark backgrounds

The reversed logo lifts the colours slightly for contrast: grey #C9C9CD, green #4FB857, red #E04045, wordmark white.

Typography

The wordmark is set in Inter Regular and supplied as outlines — never retype it. For all supporting materials use Inter (free, Google Fonts); Arial / Helvetica is the fallback where Inter is unavailable.

Aa

Headings — Inter SemiBold

Strong, calm, easy to scan. Sentence case, tight tracking.

Body copy — Inter Regular, 10–11 pt

Use Kuthula Grey or Charcoal for body text; Red for emphasis only.

Hierarchy example

Projects delivered with clarity and care.

Consulting & Projects — we help organisations plan, structure and deliver work that moves them forward.

Please don’t

Keep the logo consistent. Always use the supplied artwork files.

Stretch or squash

Change the colours

Rotate or tilt

Add shadows or effects

Invert the colours

Also avoid: placing the full-colour logo on busy photos or low-contrast backgrounds (use the white or reversed version instead), re-typing the wordmark in another font, or rearranging the icon, wordmark and descriptor.
